Supriya Singh

Frontend Developer(React)

Professional Summary

Dynamic and adaptive front-end developer proficient in JavaScript and React.js, with a flair for creating scalable and responsive user interfaces. Demonstrates a profound capability to leverage Generative AI and swiftly learn new technologies. Skilled in collaboration, problem-solving, and enhancing code quality for optimal web performance.

Experience

LetsGrowMore | Intern at Web Development   June 2023 - June 2023

- Developed and implemented frontend projects, showcasing a progression from beginner to advanced levels, which aligns perfectly with the job requirement for developing applications using React.js and related technologies.
- Designed and optimized responsive user interfaces with modern web technologies, highlighting my experience in creating visually appealing and mobile-friendly web applications.
- Enhanced problem-solving and debugging abilities through diverse web development tasks, demonstrating excellent attention to detail and a strong foundation for a role involving thorough testing and debugging.

Projects

All Recipes   Live Demo Link   Github Repo Link

React   RESTful APIs   Responsive Web Design

- Developed a recipe discovery app using React for an intuitive user interface.
- Implemented RESTful API integration for exploring a wide range of recipes.
- Utilized React Router for seamless navigation between recipe categories.
